
Design Implementation Camera Module Fpga Platform

the design and implementation of a wireless video ... - the design and implementation of a wireless video surveillance system ... at different angles to the camera. consequently, a better design is to deploy an array of cameras surrounding the queuing area. the system then fuses their data together to form a more accurate count

design and implementation of an ip-based security ... - design and implementation of an ip-based security surveillance system . cletus o. ohaneme¹, james eke², augustine c.o. azubogu³,emmanuel n. ifeagwu⁴ and louisa c. ohaneme⁵. ¹department of electronic and computer engineering, nnamdi azikiwe university awka, anambra state, nigeria.. ²department of electrical/electronic engineering, enugu state university of science & technology

the design and implementation of a linescan camera based ... - 1 the design and implementation of a linescan camera based real-time image scanning system dong hyun jeong¹, young rin kim¹, kang moon lee², kwang won jin², chang geun song¹ hallym university¹ m.o.i. co., ltd.² abstract: in this paper, real-time image scanning system is designed using linescan camera. the system is especially designed to diagnose and analyse condition of tunnels

design and implementation of an autostereoscopic camera system - camera board n-1 camera board 2 camera board 1 backplane cameras autostereo display figure 3: an overview of the autostereo camera system. each of a set of cameras feeds a camera board. these are multiplexed together across a backplane, and the resulting output fed to the autostereo display. dodgson & moore 7 required for each camera in the ...

design & implementation a voice based camera directional ... - this work presents a design and implementation of a voice based camera tracking which uses the voice energy level to inform the system which person is speaking. the integration of voice signal and face tracking algorithm facilitate the use of such system for many automated application. the case study of video conference is proposed with such ...

design and implementation of a dual-camera wireless sensor ... - design and implementation of a dual-camera wireless sensor network for object retrieval dan xie, tingxin yan, deepak ganesan, allen hanson department of computer science, university of massachusetts amherst {dxie, yan, dganesan, hanson}@cs.umass abstract this paper presents the design and implementation of a

design and implementation of motion detection alarm and ... - the design real time security system using human motion detection is to develop a system to monitor the area using web camera is suitable in the area where no one is permissible to enter and where there is the need to detect if any motion has been done. the camera was used to captured the live images of the area under

interfacing the analog camera with fpga board for real ... - analog camera with fpga board. this paper describes the design and implementation of camera interface module required for connecting analog camera with xilinx ml510 (virtex-5 fxt) fpga board having no video input port. diligent vdec1 video daughter card is used for digitizing the analog video into digital form.

design and implementation of real-time vehicular camera ... - traffic information system. first, we developed a smart vehicular camera platform. the proposed platform requires high-speed camera interfaces to forward images to a processor, network interfaces to communicate with the traffic service server, and parallel processing capability to recognize input images. 2.1. hardware design

networked surveillance system design guide - networked surveillance system design guide choosing network cameras 9 dome cameras fig 9. dome camera a dome camera is fixed type camera designed to be installed on a ceiling. the lens module included with the dome camera should be adjusted to frame the desired monitoring angle during installation.

designing and implementing a dynamic camera system - camera a a c b a b c zoning : implementation a naive implementation would just compare the results from the query, against the currently active camera, and if there's a difference, swap to the new camera. this works fine, unless your zones overlap. in this example, when we move from zone a into the overlap

red light running camera implementation guide - alabama department of transportation red light running camera implementation guide chapter 2 red light running problem identification the initial step in determining whether a rlr camera system, or any candidate countermeasure, needs to be deployed is to identify whether red light running and resulting crash problems exist at the

design and implementation of upnp-based surveillance ... - design and implementation of upnp-based surveillance camera system for home security yi gu 1, myoungjin kim , yun cui ¹division of internet & multimedia engineering konkuk university hwayang dong, gwangjin gu, seoul, korea

design and implementation of remote operated ... - ijsetr - design and implementation of remote operated spy robot control system wai mo mo khaing¹, kyaw thiha² department of mechatronic engineering, mandalay technological university mandalay, myanmar abstract- spy robots are remotely controlled robots, equipped with a camera, transmitting video data to the intervention troop. they are

design and implementation of wireless camera ... - tenna. the second task is system implementation, i.e., the design and integration of the wireless components with the uav control. the third task is the implementation of the wireless camera component through installation of the video camera on the uav for display on a pc. the last task is the demonstration of the wireless link and camera
