**quantum theory of radiation - university of pittsburgh** - quantum theory of radiation the values of the scalar potential  $v$  and of the three components  $u_x, u_y, u_z$ ,  $u$ , of the vector potential. in this representation the field is described by a continuous infinity of variables, which is very difficult to handle; furthermore such representation is inconvenient because the energy of the field expressed in terms of the variables, contains them in a very ...
