**part a electromagnetism - university of oxford** - 0.3 bibliography this is a short, introductory course on electromagnetism, focusing more on the mathematical formalism than on physical applications.

**electromagnetism laws and equations** - 1.1.2 uniform electric fields a uniform field is one in which the electric field is the same at every point. it is most commonly encountered between two parallel, conducting plates, ignoring edge effects. **5. electromagnetism and relativity - damp** - 5. electromagnetism and relativity we've seen that maxwell's equations have wave solutions which travel at the speed of light. but there's another place in physics where the speed of light plays a prominent role. **report js0 - jsimplicity** - preface
