# Electrostatics Coulombs Law Questions With Answers

**part a electromagnetism - university of oxford** - 1 electrostatics 1.1 point charges and coulomb's law it is a fact of nature that elementary particles have a property called electric charge. in si **electromagnetism laws and equations** - where  $v(p_2)$  and  $v(p_1)$  are the electric potentials at  $p_2$  and  $p_1$  respectively, and the integral is evaluated along any curve joining the two points. note which way around  $v(p_2)$  and  $v(p_1)$  are, the same order as the limits is very easy to make a minus sign mistake here, always label clearly on a diagram where points  $p$
